

FACE MASKS & SAFETY

Face masks are now optional for patients and visitors, masks are required when:

- Returning from a recent COVID infection and must be worn for 5 days upon return
- After an exposure to a COVID-19 positive or presumed positive individual and must be worn for 10 days upon return
- Upon return from international travel and must be worn for 10 days
- You are experiencing any respiratory illness symptoms

If you chose to, continue to wear a mask if you are more comfortable doing so or if you are at high risk of becoming infected with COVID-19.

Please call before coming to the office if you have symptoms of potential COVID-19 infection including: fever, cough, shortness of breath, chills, muscle pain, new loss of taste or smell, vomiting or diarrhea and/or sore throat; or have recently been in contact with a person who may be sick with COVID-19.
