Education

Dr. Asad Dean graduated Cum Laude with a Bachelor of Science in Biology from the University of Texas-Arlington. Dr. Dean received his medical degree from the University of Texas Southwestern Medical School in Dallas in 1997 and completed his internship and residency at the State University of New York Health Science Center in Syracuse. In 2003, Dr. Dean finished his fellowship in Hematology/Oncology at the University of Texas Southwestern Medical Center.

Research Interest

Dr. Dean has a special interest in research for Genitourinary (GU) malignancies and Leukemia.

Medical Practice

In 2003 he was appointed to the faculty of UT Southwestern Medical Center as Assistant Professor in the division of Hematology/Oncology.

Other Information

Dr. Dean enjoys speaking at educational events on topics such as Leukemia and GU Malignancies. He has proudly lectured in over forty-six states.

What is your personal philosophy around patient care?

The human aspect of oncology touches me personally and drives me professionally to help keep fighting cancer. It is why I want to keep advocating for individuals that are confronted with tremendous adversity and thrust into a very challenging circumstance. To care for cancer patients, you can't help but be inspired by their qualities such as courage, determination, grace, and perseverance. It is that inspiration derived from caring for patients that remains the driving force in my practice.

Accolades & Memberships
