General Summary

Dr. Colton was trained in the cura personalis (treatment of the whole person) tradition during his residency at Georgetown University and using targeted therapeutics for personalized cancer treatments during his fellowship at UCLA. With this background, Dr. Colton provides comprehensive care based on the biology of the disease and the personal needs and preferences of each patient and their loved ones. Dr. Colton looks forward to sitting down with you to assemble a comprehensive team, treatments, and other resources for you personally and your specific disease.

Education

- **Fellowship in Hematology and Oncology**
University of California, Los Angeles, Los Angeles, CA
